Materiali da costruzione in Iran

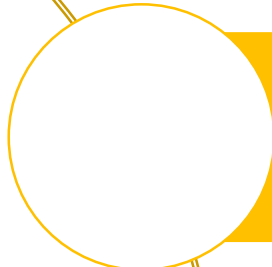

Nota di mercato

Il settore edilizia in Iran

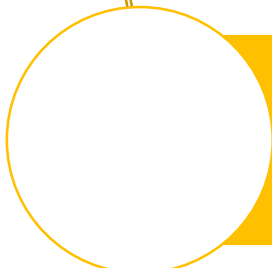

A large, solid orange circle with a white border, positioned to the left of the main title.

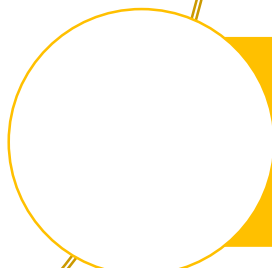

Dimensioni e segmentazione

A white circle with an orange outline, connected to the main title by a thin orange line.

Il fatturato 2014 nel settore dell'edilizia è pari al 5% del PIL e si è consolidato su un volume di 38,4 miliardi di dollari USA

A white circle with an orange outline, connected to the main title by a thin orange line.

Il mercato è suddiviso tra i grandi progetti infrastrutturali pubblici ed il mercato immobiliare privato che vede oltre il 70% degli iraniani proprietari di immobili. I progetti pubblici hanno un focus specifico sull'espansione degli aeroporti e delle infrastrutture autostradali

A white circle with an orange outline, connected to the main title by a thin orange line.

Il settore immobiliare iraniano è uno dei pochi in cui le quote di capitale statale sono inferiori al 2% del totale, con una preponderanza del capitale privato d'investimento.

Trend di crescita

Il fabbisogno annuale di unità abitative ammonta a circa 750.000 l'anno, ad un ritmo costruttivo di circa 2.000 unità al giorno che è attualmente inferiore del 27% al volume necessario

L'ultimo censimento della popolazione ha stimato, nel 2006, una carenza complessiva di 1,5 milioni di unità abitative. Nell'ultimo decennio l'incremento demografico unito alla carenza cronica stimata ha determinato un forte incremento dei costi

Hub delle tendenze relative al design e all'architettura è la capitale Teheran con oltre 12 milioni di abitanti. L'edilizia sostenibile ed i progetti infrastrutturali sono strategici per la città in ragione del forte inquinamento e dei problemi relativi alla mobilità urbana

Trend di crescita

Prodotti e materiali
per edilizia più
richiesti

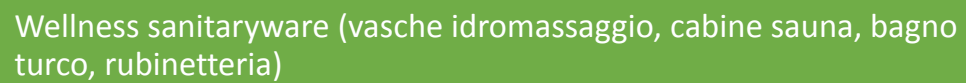

Prodotti antisismici, termici, isolanti, antirumore

Attrezzature per sicurezza, allarme, antincendio, ascensori

Rivestimenti (mosaici, laminati in legno, parquet, e vetro / alluminio per facciate)

Wellness sanitaryware (vasche idromassaggio, cabine sauna, bagno turco, rubinetteria)

Grandi porte, vetrate, porte automatiche (garage)

Lastre, barre, laminati in ferro e acciaio, controsoffittature

Impianti ed articoli di illuminazione (anche domotici)

ITALIAN TRADE AGENCY

ICE - Agenzia per la promozione all'estero e l'internazionalizzazione delle imprese italiane

Trend di crescita

IMPORT

I principali prodotti importati attualmente in Iran secondo l'Agenzia delle Dogane

Ferro e acciaio (lastre / barre / laminati in ferro e acciaio)

Costruzioni prefabbricate

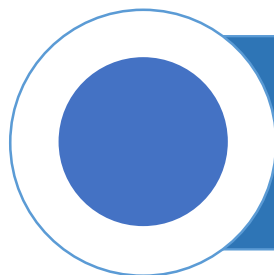

Ascensori

Gesso e cemento

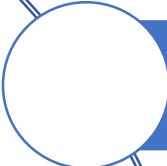

Macchine per la costruzione stradale, escavatori e gru, paranchi

Prodotti igienici di plastica e porcellana

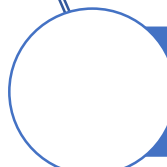

Articoli in gres

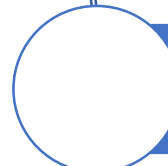

Forecast 2016

A white circle with a blue outline, connected to the text box by a thin blue line.

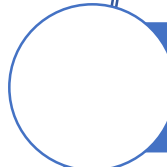

Il mercato delle costruzioni in Iran vede una previsione di espansione sino ad un volume di 154,4 miliardi di dollari USA nel 2016, che consisterebbe in un raddoppio della dimensione in un solo triennio

A white circle with a blue outline, connected to the text box by a thin blue line.

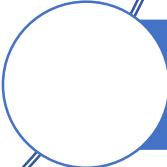

Il business della ristrutturazione e dei materiali per l'edilizia vede opportunità strategiche: il 50% degli edifici ha oltre trent'anni d'età, il 40% tra i dieci e i trent'anni, e solo il 10% è stato realizzato nell'ultimo decennio

A white circle with a blue outline, connected to the text box by a thin blue line.

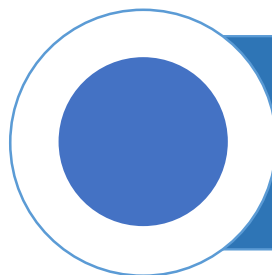

Il restauro degli edifici è una priorità. Il governo stanzierà, secondo le stime, circa 143 miliardi di dollari USA per restaurare 14.000 metri quadri di edifici scarsamente agibili. Il piano è di fornire circa 1,8 milioni di prestiti per il periodo 2014-2020.

A white circle with a blue outline, connected to the text box by a thin blue line.

L'edilizia per uffici e spazi commerciali vede un eccesso di domanda rispetto all'offerta determinato dal calo delle licenze di costruzione rilasciate negli ultimi anni. I prezzi immobiliari sono maggiori rispetto al segmento residenziale.

A white circle with a blue outline, connected to the text box by a thin blue line.

Le tecnologie per l'edilizia antisismica avranno un valore aggiunto sul mercato edile dell'Iran post-sanzioni, unitamente all'importanza del design funzionale che possa superare l'attuale

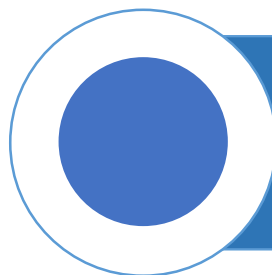

Forecast 2016: strategie

Una strategia di ingresso al mercato efficace deve prendere in seria considerazione la possibilità di unirsi ad un partner locale qualificato tra aziende private oppure governative di recente privatizzazione

La presenza locale in Iran è estremamente importante. Lo sviluppo dei contatti nelle gerarchie imprenditoriali iraniane agevolano il processo di assegnazione dei progetti locali. Il lobbying continuo verso le autorità governative è fondamentale.

Il monopolio del canale distributivo dei materiali da costruzione in Iran è in mano a un underground network che gestiscono principalmente il mercato di cemento e ferro

Le ottime società di ingegneria ed architettura del paese sono a stretto contatto con ministeri, municipalità, fondazioni ed autorità preposte allo sviluppo urbano e turistico e possono essere un key partner per le aziende italiane
